Product Information: Prefinished Sheet Steel

- A - Versatility**
- B - Durability**
- C - Colours**
- D - Economy**

D - Economy

Prefinished sheet steel offers the economies of a lightweight roll-formed product. Architects may design their structures using economical components, with the flexibility of incorporating a variety of efficient insulation packages into the building's envelope.

The durability and quality of prefinished steel systems presents the owner and architect with a variety of panel profiles to suit individual budget constraints.

Consider these advantages:

- Year-round construction
- Quick assembly
- Easily integrated with building accessories
- Lightweight
- Short lead times for standard colours
- Wide selection of profile shapes
- Custom-cut to suit your needs
- Coordinated colour for trims / flashings
- Design flexibility

For more information on the economics of prefinished sheet steel, contact the Canadian Sheet Steel Building Institute (C.S.S.B.I.) or your local C.S.S.B.I. member.
